Thanks Maw.

@Khai – please use Transfer order #122 for this purpose. It's currently empty as I was originally using it for the Interparcel delivery which you've captured in #123.

Cheers,

Adrian

Subject: Re: For your approval to edit supplier order 118

Hi Adrian,

This supplier order is already received. If we reactivate it, I might have to amend the existing items' inventory records.

Will it be possible to create a new transfer order and add those missing items?

Maybe we can write some comments so that we will know their connection with supplier order # 118.

Kind regards,

Maw

Hi Khai,

Sure. Can update the old supplier order.

@Maw – could you please reactivate the order so Khai can edit it?

Cheers,

Adrian

Subject: For your approval to edit supplier order 118

Hi Adrian

I just noticed that i missed out some products in the supplier order 118.

It is the transfer order to NTUC branch. Attached is the delivery order to show what were delivered and screenshot of the system.
May I have your approval to update this supplier order or you want Maw to do it at backend?

(ACRA Reg.No. 2019)
